Our Goal:

The goal of Hornet Haven and Honeybee Haven is to offer quality before and after school care, school age summer enrichment, and preschool in a happy, healthy, and safe environment.

Our Vision:

Our vision is to meet the child care needs of area families in our growing community and to serve as an outreach to those who are looking for a church home.

We strive to share Christian values with children through programs that will enhance a child's ability to learn and grow during times when they must be separated from their family.

"Offering quality child care...when you're not there"

Hornet Haven Before and After School Care

Hornet Haven is available to those families needing child care in the morning before school starts and in the afternoon after school is over.

The program is designed to offer homework time, snack, art, large muscle exercise, game day and movie day in a relaxed yet controlled atmosphere. We try to be aware that some of the children have been away from their own home for most of the day and could use a little "down time" and fun.

We also offer after school care for children who are enrolled in morning kindergarten. The children arrive by

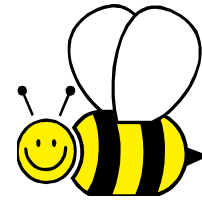

school bus around 11:30am, enjoy their parent provided lunch, play, rest, and then join the other children who are arriving after all day school.

Hornet Haven Summer Enrichment Program

An all day summer care program for children who have completed kindergarten through the summer after fifth grade.

The program features a weekly theme with art, weekly off site field trips, swimming, and a visit to the Community Park. We visit the Monroe Lending Library weekly and each morning work on math, writing, and reading to keep the children on track for the upcoming school year.

Honeybee Haven Preschool

The preschool program is designed to meet the early learning needs of children ages 3-5 years. We work to enhance early learning by offering social, emotional, physical, educational, and spiritual development through activities that include large and small muscle play, art, language arts, reading readiness, math, science, music, dramatic play, sensory motor, field trips, and free play inside and outside. We offer Christian values through prayer and Bible stories.
